

Annual International Systemic Constellation Learning Circle 2023

June, 28th – July, 2nd 2023 in Siegsdorf, Germany

Healing happens in Relation

The Intention of this Training Workshop is to deepen our understanding of basic principles of Transformation-Oriented Systemic Constellation Work.

Being aware that **Learning, Healing and Evolving** is one movement, participants have the opportunity to present personal and professional issues and questions. We will address them by using **systemic thinking, constellations and transparent communication** in order to release our potential for personal and professional growth.

In order to provide deep processes of learning please understand that this workshop is only for constellation facilitators and therapists with advanced experience in systemic constellation work.

Stephan Hausner
